## Invitation

We cordially invite you to join our conference of *Stand Up for Europe!*, which is an ERASMUS+ European partnership (2024-2026) of organizations in five countries: Türkiye, Slovenia, Hungary, Italy and Germany. The conference is hosted by the *Chair for pedagogics and adult education & Network Civic Education in Bavaria* at the University of Augsburg. Our joint European project developed tools and methods to counter anti-democratic slogans put forward by populist, extremist, sexist and stereotype-based movements. Online-scenarios, an extensive training manual with 40 activities, national reports and dissemination strategies are elements which will be presented; you will get vibrant insights into the current societal and political situation in Europe.

*Stand Up for Europe!* primarily addresses young people. It focuses on issues that have become particularly relevant in recent years and that are at the center of populist thinking and hate speech today. These topics include: Science, gender identity, climate change, migration, war and human rights.

The products we developed will be useable for workshops with your target groups of Youth, Youth trainers and managers of Civic Education as well as school contexts and educational institutions targeting youth. All resources are available online in German.

We are very happy to also welcome a representative from the European Commission and especially Prof. Dr. Klaus-Peter Hufer as the one who initially created the *Argumentation Training Countering Slogans* 25 years ago – still one of the most successful trainings of Civic Education in Germany.

**Join us, get inspirations & tools –  
and use the chance for networking with inspiring people from European institutions!**
